

THE HEBREW UNIVERSITY-HADASSAH SCHOOL OF DENTAL MEDICINE  
FOUNDED BY THE ALPHA OMEGA FRATERNITY, JERUSALEM, ISRAEL

Invites Applications to a New  
**INTERNATIONAL  
POSTGRADUATE**

# ORTHODONTIC PROGRAM

## IN THIS PROGRAM

you will acquire the advanced skills you need in order to compete in today's increasingly competitive dental services market in your country. You will study in a unique international environment at a prestigious institution in Jerusalem - a city with over 4,000 years of heritage.

### Program description:

IPOP includes the following modules:

- » Pre-clinical core and hands-on courses (including lab training)
- » Courses in clinical orthodontics
- » Patient treatment
- » Research - basic or clinical

### Program commencement:

March 2012

### Program duration:

3 years

### Admission requirements for international candidates:

DMD or DDS or equivalent degree in dentistry from an accredited academic institution  
Knowledge of English at academic level (TOEFL or equivalent test results)

### Application:

Deadline: August 31, 2011

### Tuition:

NIS 120,000 per year (approx. \$33,000, depending on exchange rates). Students will be responsible for their own living expenses and travel and for the purchase of all essential books, personal orthodontic instruments and professional camera.

## Overview:

The postgraduate orthodontic program, which started in 1977, has been upgraded into an international program taught in English International Postgraduate Orthodontic Program (IPOP). As a student at IPOP you will benefit from:

- » The broadest clinical and academic training that only the combination of a prestigious university and a world leading medical center can provide.
- » Faculty of more than 20 specialists including world renowned clinicians and researchers.
- » Specialized clinics: early treatment, adult orthodontics, impacted teeth, clefts, periodontally accelerated osteogenic orthodontics, orthognathic surgery, special needs, lingual & Invisalign treatments, self-ligating brackets, and treatment of multidisciplinary cases.
- » IPOP meets the academic requirements of European ERASMUS project and of the European Federation of Orthodontic Specialists Associations. Studies are full time, 5 days per week (Sunday-Thursday). You will start at least 60 new cases and will continue treatment of many transfer cases.
